

Title: Adjunct Clinical Instructor for Radiologic Technology

Department: Allied Health, Lowry

This position will provide the students of the Radiologic Technology Program and Mammography Program with interactive, hands-on clinical instruction at select Denver-area hospitals and/or clinics. Job duties include acting as a liaison between the college and clinical affiliate, mentoring students, evaluating clinical performance, and attendance at monthly staff meetings.

Minimum Qualifications:

- Minimum 3-years fulltime experience as an ARRT registered technologist
- Active ARRT certification in good standing
- Strong written and oral communication skills
- Skilled in all aspects of diagnostic radiography to include: patient care, trauma, portables, surgical procedures, and fluoroscopy
- Current CPR: BLS for Healthcare Professionals
- Ability to obtain the Colorado Community College System Career and Technical Education (CTE) Credential.

Preferred Qualifications:

- Associates or Bachelor's Degree (preferred)
- Mammography certification
- Experience teaching in the clinical setting
- Experience teaching in adult education

To be considered for employment, send:

- A cover letter with a brief summary of your education and experience
- Resume or curriculum vitae
- Copy of current ARRT card
- Employment Application
